LED Strip Configuration Reference

Notes

- Configuration Terms & Conditions**
- This worksheet is designed to be completed with a Solstice Lighting professional only.
 - Cuttable lengths will vary depending on the LED strip type.
 - Lengths are sold by the metre, any excess pieces will be provided to you.
 - All customisations are made to order and are non-refundable.
 - IP rated LED strips require additional connection length that may impact the overall length.
 - All cuts, solder and tail extension incur workshop costs.
 - Maximum run lengths vary and may require additional connection methods and equipment.
